## FOREWORD

*Moses never expected to see the Lord as Burning Bush Fire on the mountain. Prophet Muhammad never expected Jibreel to come and ask Prophet to recite Holy Quran. Similarly I never expected to see the vision of Supreme Lord Indra who later revealed the secret of all revelations.*

All world religions are worshipping one God without knowing the secret of the Supreme Lord. I have briefly explained about Pyramid Text, Jewish scriptures, Christianity and Holy Quran. Most authentic revelations after Rig-Veda is Holy Quran. Holy Quran sheds light on 10<sup>th</sup> Mandala, Sukta 129 on creation. However the path of redemption and going to the presence of the Supreme Lord in this life itself is mentioned in Rig-Veda only.

Indra rules over the universe and all species. The earth and the nations are also ruled by him. When one society rejects Indra, he also rejects them and chooses another society as his friends and blesses them with Revelations.

Indra has sent revelations to many tribes on earth because unless Indra himself reveals his glory no one can understand it. Even after many revelations man has failed to understand his glory due to the influence of Demon King Satan.

Man sees only the physical world hence he believes that what he sees is the only truth and negates what he does not see. Therefore most of the tribes who received revelation deviated from worshipping Indra.

## Indra and Middle Eastern Religions & Buddhism

---

However all religions know only the half-truth. Indra has not guided anyone in his true path till today except for those who received the revelations.

No one knows the secret of Indra. No one can understand the glory of Indra unless he himself reveals it. Although other tribes could not understand the glory of Indra, they worship him in ignorance. Ancient Egyptians worshipped Indra as Osiris. All Gods mentioned in Pyramid Text are none other than Gods of Rig-Veda. Unknown people built Pyramid that represents the highest truth of creation. Pyramid is called Tomb of Osiris. That means Osiris is present inside the Pyramid. The word Pyramid itself means “Fire/Flame in the middle” and we have read that Indra appears like Flame and within that Flame Indra is sitting on the Throne.

If the apex of the Pyramid is downward it represents creation and if the apex of the Pyramid is upward it represents Liberation from the cycle of birth and death. A yogi in this life itself can attain liberation by the path of Pyramid.

(See my article in Part I on Ashvamedha Yaga.)

When ancient Egyptians rejected the path of Indra and chose other Gods such as Ra, Indra rejected them too. Then Indra blessed Abraham who believed in the One Supreme Lord and rejected the worship of many Gods. Indra promised Abraham that his tribe will be blessed by the birth of Divine person called *Messiah* and he will bring all his tribe together and rule the entire earth. Later Moses was blessed with vision of Indra as Flame. Jews call it “*Burning bush Fire*”. Indra blessed Moses and gave revelation to guide his tribe.

Even Jewish community failed Indra in realizing his glory hence Indra blessed a desert tribe to guide them. Indra chose Prophet Mohamed

# Indra and Middle Eastern Religions & Buddhism

---

and blessed him with revelation Holy Quran. The followers of Prophet undoubtedly believe in the words of Holy Quran and their Prophet.

However all Middle Eastern countries don't understand the true teachings of their scriptures. Therefore no one on earth could understand the Glory of Indra and the way to worship him. They all believe that to go to the abode of Indra all have to wait till dissolution of heaven and earth and only then they can go to Paradise of Indra.

**However Rig-Veda shows us the path to go to the presence of Indra in this life itself** and one need not wait till the dissolution of heaven and earth. I believe that this book will show them the true path. "Who knows what the truth is, or who may declare it? What is the proper path that leads to the gods? Their inferior abiding places (physical world) are beheld, as are those which (are situated) in superior (Yajna) rites are not known." (Rig-Veda 3-54-5)

The way to worship Indra is through Agnihotra but no one knows its significance.

## Chapter 1. Significance of Divine Revelations

*“THE MIND IS ALL. Mind is multidimensional in nature and Knowledge is also multidimensional. Whatever meditation, chanting or prayer one does; mind reveals certain kind of experiences and secrets of unknown nature based on one’s belief and past life experiences. In most of the cases imagination plays a great role.”*

*Hence it is only the revelations that show the True path.*

“..... We created the heavens and the earth and all that is between them. **We did not create them except in truth.** But most of them do not know.” (Holy Quran 44-38, 39)

Man can achieve anything in his life. He creates his own world within his mind. His wife and children, parents and relatives, business or work place, friends, his belief and religion are his universe. His mental universe is true for him and he believes in it completely. No one can change his world. He believes that his God is the true God and others are worshipping fictitious Gods.

His mind provides proof of his belief even if he is wrong. Therefore each individual creates his own mental universe which is true for him. It all depends on one’s own upbringing and surrounding atmosphere of family and friends. It is only because of these beliefs and attitudes there are hundreds of faiths and sects present on this earth. No one is ready to forego his belief and listen to the truths told by masters. Indra

# Indra and Middle Eastern Religions & Buddhism

---

has sent many revelations to mankind to guide them but no one listens to them. In fact people tortured and killed many masters all over the world including India.

## *Don't believe but experience*

The believers are the most dangerous people on earth. All of them trust that what they believe is true. They try to convert others to their faith. They are even ready to kill for their beliefs. Their teachers and pastors themselves mislead them. When there is so much of division in the world; who can decide who is right? Whom to believe? How to attain Indra's grace?

The reason for man's ignorance is because of Satan. The Demonic King Vrtrasura controls humanity and misguides them. The priests, pastors and Mullahs are his servant as they guide their people into hatred, looting and killing in the name of the Lord. Because of Satan, man cannot understand the message of divine revelations on his own. It is imperative that a person be blessed by the Supreme Lord to understand His glory and truth behind these revelations.

Who and what is the glory of the Supreme Lord according to these Middle Eastern religions and its revelations?

- Rig-Veda states that Indra is the Supreme Lord who creates, sustains and destroys the universe. His throne is placed upon the waters (or above the universe). Indra appears like Flame/Light and when one sees inside the Flame, Indra appears in human form sitting on the Throne.
- Pyramid religion calls the Supreme Lord as Osiris and Pyramid is called as the tomb of Osiris. The eldest of all Gods, Osiris is present inside the Pyramid. The word Pyramid itself means "Fire/Flame in the middle".

# Indra and Middle Eastern Religions & Buddhism

---

- Jews call the Lord as Yahweh. According to them Yahweh is sitting on the throne above the clouds. He created the First Adam in the Garden of Eden. Moses saw the Lord as Fire/Flame.
- Christians call the Lord as Jehovah. They too believe that Jehovah is sitting on the throne above the clouds and ruling the universe.
- Holy Quran states that Allah is sitting on the throne above the water. Muslims also believe they see the Lord in the Paradise as sitting on the Throne.

Indra is called by different names according to one's mother tongue but the glory of Indra is the same in all these revelations. Therefore to understand the revelations Indra's blessing is imperative.

Holy Quran has certain verses that throw light on the previous Revelations especially on Rig-Veda.

“And believe in the Book which I have revealed and which confirms the Scripture you already have, and be not foremost among its deniers. Do not sell my signs for a trifling gain, and beware of My wrath.”  
(Holy Quran 2-41)

“And this Quran is such that it could not be composed by any unless it is revealed by Allah. It is a confirmation of the revelation made before it and a detailed exposition of the Book. Beyond doubt it is from the Lord of the entire Universe.” (Holy Quran 10-37)

(I am of the view that the above verse is speaking of Rig-Veda.)

The secret of universe is unending. The Muslims understand only the physical body and physical world. They believe that after death they will be buried inside the earth and will remain there with their dead

# Indra and Middle Eastern Religions & Buddhism

---

body and will be resurrected at the time of Judgment Day. They have no understanding of the world of Indra, angels (Devatas), the subtle world and the secret of creation.

## *If their belief is true then why Seven Heavens was created?*

The Holy Quran does not give any details regarding the Kingdom of God that is present within the human body but it speaks about Heavenly Adam created in the Paradise. Genesis state that it is Elohim (Gods) who created the earthly Adam. This shows that within this physical body there are other bodies too. According to first divine revelation we have;

1. The causal body or Heavenly Adam is created in the abode of Indra.
2. This universe has a personality and he is called Virat Purusha/Cosmic Man/Universal Man. We have subtle body which is the replica of the Universal Man. Hence the age old statement “Microcosm is the replica of Macrocosm”.
3. The third is the physical body created by Salila/Primordial Water which encompasses the above two bodies. The physical body is created by Sun-Savitr (called Elohim). This physical body too has two other bodies within and they are;
  - Pranamaya Sharira. (Body of Breath). Five Pranas control all the functions of the physical body.
  - Manomaya Sharira. (Body of Mind). Whatever is recorded through senses by Prana is our mind. Therefore our personality is nothing but the personality of Prana and Mind called *Jiva or Astral Body*.

All these bodies were created to fulfill the desires of the Soul/Atma that appears like Flame/Light. Hence there are two flames within our

## Indra and Middle Eastern Religions & Buddhism

---

body. One is the Lord's Flame and the other is individual Flame called our soul. Our soul has desire to come down to earth to enjoy the life on earth instead of remaining with God. The only purpose of creation is to fulfill the desire of all souls. Soul that appears like Flame/Light cannot directly enjoy the physical world hence all these bodies are provided by the Supreme Lord.

Holy Quran 3-14 states: "People are normally tempted by the lure of women, children, treasures of gold and silver, horses of mark, cattle and plantations. These are the enjoyment in the life of this world; but with Allah is a goodly abode to return to."

After undergoing the life experience, very few people think about "Who are we? What is the purpose of our existence and birth on earth? When those thought enters one's mind, he will start searching for the answers. If that person is guided by a true teacher then he will surrender to the Lord to redeem himself. Rig-Veda teaches us to go the abode of the Lord in this life itself.

## Chapter 2: Pyramid; The Divine Structure

Pyramid comes to our vision the moment we think of Ancient Egypt. According to some historians the Pyramid was built about 4,500 years ago. That was the time period of Abraham, the founder of Jewish community. If the Pyramid was built during that time it would have been documented in their history. His third or fourth generation of Jews was the prisoners of Egyptian Kings. Moses released Jews from their bondage and led them away to a land of their own.

These Egyptian kings and Jews did not possess the technology to build the great Pyramid. Egyptian history also never mentions about the builders of Pyramid and the king who built it. Every tribe behaved as if the Pyramid was present even before them. The Pyramid builders were so advanced in the art of building mechanics that even present day scientists are wondering about their capabilities.

It seems that the Giza Pyramid was a perfect Pyramid and all other Pyramids constructed after that seems to be technologically inferior. Normally we see that when someone learns the trade, the skill improves with time but in the case of Pyramid we see a degradation of skills of building Pyramids.

Therefore some suggest that the Giza Pyramid might have been built by aliens because the local people did not possess the skills of building idols and Pyramid. The idols of their gods and kings are so perfect that one side of the engraving matches with the other side of

# Indra and Middle Eastern Religions & Buddhism

---

the idol. Such technology and perfection cannot be achieved even today.

Therefore some suggest that its origin is divine. I think when Indian civilization rejected Supreme Lord Indra; the Lord may have chosen the earliest Egyptians. It must have been the Lord who gave design and measurement of the Pyramid structure. Only those who knew the complete truth of Indra and creation may have built the Pyramid.

The triangular shape of the Pyramid is actually a divine symbol of creation and destruction. It is said in Tantra scriptures that if the triangle's apex is downward then it represents creation and if the apex of a triangle is upward it represents dissolution. These triangles are three dimensional triangles.

When Universal Mind enters Breath and Primordial Ocean for creation, it first creates four triangles in the process of creation. In all these triangles, the apex of the triangle is downwards. These Triangles are Pyramid in shape. Similarly at the time of dissolution, the apex of the triangle turns upward and Universal Mind once again dissolves everything and enters Darkness surrounding Primordial Ocean and Breath.

The Tantrics who worship Universal Mind sees the apex of the triangle as being downward in which Mother is sleeping in Serpent form. Yogi raises her from sleep along with his soul and takes her to the highest place where the Moon is present. Within the Moon is present Darkness (Brahman) triangle. Mother and the soul of yogi disappear as soon as they enter Brahman. After enjoying the bliss of Brahman for some time, they once again rise from Brahman and come back and the yogi brings his soul to its original place.

## Indra and Middle Eastern Religions & Buddhism

---

Mother and soul comes back because the apex of the triangle is downward. But when the time comes for the yogi to leave the body, the yogi turns the apex of the triangle to be upward by his thought force. Then the triangle turns upwards. The yogi then takes his soul and Mother upwards and merges in the triangle present within the Moon and leaves the body.

Thereafter yogi and Mother won't come back to the physical body. Yogi has attained immortality. This process of dissolution gives renunciation to the yogi. He won't have any wish to come back to the earth. All others have to wait till the dissolution of the entire creation by the Supreme Lord. (Also read *Ashvamedha Yaga* in First chapter.)

Triangles, squares and circular shapes are sacred geometric designs. They emanate divine powers. Even two dimensional geometric shapes too emit divine power. This may be the further evolution of Pyramid structure. This is the basis of Tantric worshipping gods and goddesses through Yantras (sacred geometry). These two dimensional designs too emanate divine powers and gods and goddesses manifest in the centre of these Yantras. One can invoke any god whom the worshipper desires within the centre point of the Yantra. The knowledge of Yantras is a huge subject as the knowledge of mantras. There are different designs for different gods and goddess.

***Even if diagrams are created by the thought force, it emanates divine powers.***

The earth is covered with magnetic field. If one constructs a square compound on the ground, the plot within the compound will emit its own field. A house built within the compound generates a positive or negative energy which may be auspicious/bad for the family living in the house. Thus was born Vastu principles.

# Indra and Middle Eastern Religions & Buddhism

---

However for better results pyramid squares should be used. Vastu engineering called Vastushastra, originated from this understanding. To give an example, the pyramid is constructed on a square plot and another example is that of the Sacrificial Pit for Agnihotra is constructed squarely.

## Pyramid Religion

I believe that the Pyramid is a physical representation of the dissolution triangle mentioned in Tantra. It may be true that pyramid is a place for sending the kings directly to the heavens. The dead bodies of the kings were placed in the king's chamber and priests conducted burial rites with divine chants.

The subtle body of the king would be hovering around its dead physical body till its death rites were conducted. As the Pyramid's inner sanctum is filled with divine energy of the Supreme Lord, the king's subtle body might go directly to the presence of the Supreme Lord.

There is one more possibility. The Pyramid may have been used to train a person interested in spirituality to have the vision of the Supreme Lord. One can see all gods within the Pyramid.

There were four major dynasties in ancient Egypt viz., Hermopolis, Heliopolis, Memphis and Thebes. These cities had their own cult gods. Let us understand some of their gods to know the connection with Rig-Veda.

**Osiris:** He was worshipped during the first dynasty. Osiris was the first child among five sons born to god of the earth Geb and goddess

## Indra and Middle Eastern Religions & Buddhism

of sky Nut respectively. As the first born he inherited the throne. His epithet was “King of the Living” “Foremost of the Westerners”. He was also called “Ruler of the Dead”. Osiris’ other titles include “Lord of Love”, “Lord of Silence” and “One who is Permanently Benign and Youthful”.

(Osiris is called as Indra in Rig-Veda.)

After the manifestation of Gods, they create and rule the universe. As a warrior God the first born Osiris ascends the Throne. Osiris being killed is a mythical story written by ancient Egyptians. Osiris and Gods can be seen only in Hyper Space or Deep Space or within the Pyramid. When Gods come through Hyper Space, physical space or buildings is not a limitation. They just come through it and appear to the devotee.

**Ra:** He was the Sun God. Sun was said to have risen from the Pyramid mound which appeared on top of the Primordial Waters. All forms of life were believed to have been created by Ra, who called each of them into existence by speaking their secret names. Pyramid Texts state that man was created from Ra's tears and sweat and hence the Egyptians call themselves the Cattle of Ra.

(Sun-Savitr is called Prajapati, Lord of men and species in Rig-Veda.)

**Nu or Nun:** He is called the Lord of Primordial Water. According to ancient Egyptians the universe was said to have emerged from an infinite, lifeless ocean. Nu is also said to represent the sacred lake.

(According to the Rig-Veda, Lord Varuna is the Lord of the Primordial Ocean and these waters converge like lakes throughout the ocean and they turn into galaxies and star systems.)

**Ptah:** He is said to be a craftsman and architect who gives shape to everything. Ptah conceives the world by the thoughts of his heart and

## Indra and Middle Eastern Religions & Buddhism

gives life through the magic of his Word. That which Ptah commanded was created, with which the constituents of flora and fauna are contained.

(Rig-Veda states that it is God Twashtri who gives forms and shapes to everything including all life forms. Recall that Allah is an Emperor; as such he does not do any work. He just thinks and the work will be done by the angels.)

The Pyramid texts speak about many other gods whose functions resemble that of Rig-Vedic gods. After the Vedic people deviated from the path of the Lord, Lord may have blessed the ancient Egyptians. In the first dynasty of ancient Egypt, Osiris/Indra was worshipped but later on they started worshipping God Ra as the Supreme Lord. Even in Vedic history, Indra was worshipped in the beginning, later they started worshipping Vishnu, Sun-Savitar as the Supreme Lord.

Indra might have revealed the measurement of the Pyramid to its builders. The Pyramid is a divine structure. If any advanced seeker sits within the king's chamber calmly, Savitru in the form of the Sun appears directly on top of the head. When the Supreme Lord is invoked, the Lord descends on top of the head and appears to the seeker as sitting on the throne. This I have experienced in my spiritual journey. Let us now see the meaning of the word Pyramid:

- The word Pyramid means fire in the middle
- The Pyramid is also called the tomb of Osiris meaning Osiris is inside the Pyramid. The Supreme Lord appears as Fire/Flame/Light - meaning Osiris is the Supreme Lord who appears as Fire and also in human form

Therefore it is clear that the Pyramid is a divine structure or it may be called Divine Temple to purify and go to the abode of the Lord. Let us

# **Indra and Middle Eastern Religions & Buddhism**

look at Isaiah chapter 19 on the glory of Pyramid.

19-19: In that day shall there be an altar to the LORD in the midst of the land of Egypt, and a pillar at the border thereof to the LORD.

19-21: And the LORD shall be known to Egypt, and the Egyptians shall know the LORD in that day, and shall do sacrifice and oblation; yea, they shall vow a vow unto the LORD, and perform it.

## **My experience inside a Pyramid**

One day in September 2012, I saw a TV programme on Pyramid meditation in which people claimed that many diseases were cured just by sitting in the king's chamber. It also claimed that cosmic energy flows down from the top upon those who sit in the king's chamber. The calming effect of the energy cures them of their disease. I now wanted to experience the cosmic energy within the Pyramid.

### **Cosmic energy is called Vayu in Rig-Veda.**

A few days later while I was in communion with the Lord; a thought floated in the mind to create a Pyramid. I created the Pyramid by my thought force making the four walls of my room as the retaining walls of the Pyramid. Immediately the Lord shifted position and aligned ninety degrees above the head. Before that I used to put a neck lock and the position of the Lord was slightly behind. After a while I ended the meditation.

## Indra and Middle Eastern Religions & Buddhism

---

(May be sitting on the bed for meditation helped me to attain 1/3<sup>rd</sup> of the height where King's chamber is present.)

Next day while I sat for meditation again, I created the Pyramid by my thought force inside the room. I observed the Pyramid calmly and within a minute the Sun appeared about two to three feet above the head. Earlier I was experiencing the Sun within the chest or head but now it appeared on top of the head. The white light of the solar disc appeared bright and powerful.

After meditating for a while I invited Lord Indra and Lo! The Lord appeared immediately on top of the head and the Sun came down and disappeared within me. Therefore Indra and other Gods can be seen within the Pyramid. This has been my experience whenever I meditate inside the Pyramid constructed by my thought force.

## Chapter 3: Christianity

Jesus knew the glory of Indra and the truth of creation but did not teach his followers. Jesus taught them in parables, a few simple truths about love of God, good neighborliness and proper way of living in the society. This was because the followers were ordinary farmers and fishermen who were illiterates.

Jesus knew that his period was not the right time for the revelation of the Kingdom of God, so he spoke in parables. He also knew that the true path would be revealed by God in future. The development of science was needed to understand the divine revelations.

Therefore Jesus proclaimed that **the Kingdom of God is near** and asked the people to mend their ways and be ready when the time comes. He also told his disciples that Paraclete (Comforter) would come and teach them everything and make clear the meaning of the scriptures in future. Look at the following Biblical verses:

John 14-16: And I will pray the Father, and He will send you another Helper (Comforter), that He may abide with you forever.

John 14-26: But the Helper (Comforter), whom the Father will send in My name, He will teach you all things, and bring to your remembrance all things that I said to you.

John-7,8,9: Nevertheless I tell you the truth. It is to your advantage that I go away; for if I do not go away; the Helper (Comforter) will not come to you; but if I depart, I will send Him to you. And when He

## Indra and Middle Eastern Religions & Buddhism

has come, He will convict the world of sin, and of righteousness, and of judgment; of sin, because they do not believe in Me.

Christians believe that the Holy Spirit (Vayu) is the Comforter who has guided them on all aspects of Jesus' teachings. Neither the Holy Spirit nor the Supreme Lord or gods will reveal anything beyond our understanding. The Holy Spirit has all the knowledge but he won't reveal it without the approval of the Supreme Lord. This is the reason many great Masters could not understand the secret of the Kingdom of God.

Do Christians have any understanding of going to the abode of Lord in this birth itself? Do they have any understanding of seven heavens? Do they know how the universe was created? They just say universe was created by the WORDS. But do they know what those WORDS are?

The main teaching of Jesus was that the Kingdom of God is outside as well as within everybody. Look at the statement of Jesus:

Jesus replied, "The Kingdom of God does not come with your careful observation, nor will people say, 'here it is' or 'there it is' because the Kingdom of God is within you." (Luke 17:21)

Jesus says - the kingdom (heaven) is inside you and it is outside you. (Gospel of Thomas)

But Jesus did not explain further on this statement. The above statements imply that all the heavens are within the body and one need not look anywhere to realize God because the human body is the replica of the macrocosm. Each and every man has an opportunity to ascend to heaven and be free of bondage by exploring the Kingdom of

## Indra and Middle Eastern Religions & Buddhism

---

God within. He can achieve immortality and go to the abode of Indra in this life itself. Now let us read this verse of the Bible.

“Enter through the narrow gate. For wide is the gate and broad is the road that leads to destruction, and many enter through it. But small is the gate and narrow the road that leads to life and only a few find it.”  
(Mathew 7-13, 14)

The meaning of the above verse is that if a man dies a normal death he won't achieve immortality or go to the abode of the Lord. The physical body becomes one with the earth and Jiva (*holy spirit-mind*) of a person will go to one of the seven heavens created by Elohim. Here he will not have a life as we see on earth. It is because he won't have sense organs and a physical body.

Normal people will go to one of the seven heavens according to one's deeds on earth. Thoughts present in the Jiva will be active but he cannot interact with others without sense organs. They can express their strong thoughts to others. Each heaven has a different kind of settings and those who go to the seventh heaven will be with Angels and live happily. After sometime all those who reside in the seven heavens will have to come back to earth to undergo life lessons.

So, man's journey is from earth to one of seven heavens and back to earth after a time period. This cycle of birth and death will continue time and again till the dissolution of the universe. Then all will reach the Supreme Lord's abode.

Those who understand the secret of the Kingdom of God within their body would also realize the meaning of broad gate and narrow gate. A person guided by the teacher will go directly to the abode of Indra through the narrow gate. Those who go through the narrow gate

## Indra and Middle Eastern Religions & Buddhism

---

achieve immortality and will remain with the Lord forever. Judgment Day has no meaning for those who leave the earth through the narrow gate.

Jesus states that even if one prophesies and performs miracles without knowing the narrow gate will not enter the abode of Indra. Those who don't know about these gates will have to wait till the day of the Judgment Day (Qiyamat) to go to the abode of the Lord.

Jesus says that entering heaven is not as easy as believed by the Christians. Only a few find it. (Few Muslims have a wrong notion that by killing someone they can enter Paradise.) True Christians may go to heaven created by Elohim but they cannot enter the Garden of Eden. They have to come back to earth after a certain period. All believers do not gain entrance to the Garden of Eden till the Judgment Day.

“Many will say to me on that day, Lord, Lord, did we not prophesy in your name and in your name drive out demons and in your name perform miracles?” (Mathew 7-22)

But Jesus rejects them on Judgment Day. All prayers and miracles performed by Christians are of no use because it may lead them to heaven created by Elohim but they cannot reach the Garden of Eden. One has to go through the narrow gate to reach the Supreme Lord who is present beyond this universe.

Do the Christians see the Kingdom of God within them?

## Chapter 4: Jewish Scriptures

Indra is called as YHWH (Yehweh) in Jewish scriptures. Let us now see the Glory of Indra as mentioned in Jews scriptures. The most important verse in their scriptures is the one below.

### Creation in Genesis

Rig-Veda 10<sup>th</sup> Mandala, Sukta 129 is explained in one verse in Genesis.

**Genesis 1-1:** In the beginning God created the heavens and the earth. Now the earth was formless and empty, darkness was over the surface of the deep, and the Spirit of God was hovering over the waters.

According to Rig-Veda, when the time is ripe for creation, the Lord starts the creation process once again. Angels gather the ocean with their hands along with the Holy Spirit (Vayu). The Primordial Ocean will be compressed and grouped together like lakes throughout the sweet ocean. These groups of water are called Sacred Lakes in Rig-Veda. These lakes compress, spin and swirl along with the Holy Spirit (Vayu). This process produces intense radiation within the lake of Primordial Water.

This compression and radiation turns the lake into a fire ball. Thereafter the effulgence of the angels covers the ball of fire and it shines brilliantly like the Sun. These fire balls turn into galaxies, stars and planetary systems. The self-born space manifests in the process of

# Indra and Middle Eastern Religions & Buddhism

compression of Primordial Ocean. Life on earth will bloom once again.

The Sun's brightness is because of the radiance of angels. The heat from the Sun is because of the fire ball inside the Sun. The Holy Spirit is in the middle of the Sun. The Holy Spirit (Prana) is spreading his power through the Sun rays and all species including humans are dependent on Prana to live. All species breathe Prana and air to survive on earth. The physical body is nourished by air and subtle bodies are nourished by Prana. If there is no Prana and air in the atmosphere all will die.

First galaxies were created and from it suns were produced. The Sun and the galaxies are called the eye of the angels. Angels are present in the centre of all galaxies and Suns. Hence they are present in our Sun also. Angels and Sun are also present in all species including humans as we are created by them.

## **Elohim and Angels**

Savithri/Savitr is called Eohim in Genesis. Therefore Elohim may be called self-born as he manifested inside the Sun's radiance. Adityas (angels), sons of Aditi who created the Sun worship Elohim and follow his instructions. They are present within all stars, galaxies and all living beings. The question arises as to who is greater among YHVH (Indra) and Elohim? Let us analyze the part of text at <http://www.donmehwest.com>)

The Jewish scripture Deuteronomy 10-17 gives the answer:

“For the Lord your God is God of gods and Lord of lords, the great God, mighty and awesome, who shows no partiality and accepts no bribes.”

# Indra and Middle Eastern Religions & Buddhism

---

The meaning of the above statement is “YHVH (Indra) is the God of Elohim”.

In Hebrew Elohim means either God or Gods. It can be read both in the singular and plural forms. Genesis speaks of two Adams. One created in Paradise and the other by Elohim on earth. Let us now see Genesis Chapter 1 on how earthly Adam was created.

Now, it is a curious fact of Hebrew that the word Elohim can mean either God or Gods -- that is, it can be read in both the singular and plural sense. Thus, we see that the word Elohim is used throughout the opening (Hebrew) passages of Genesis in which the creation is described up to and including the first of two Adams.

For these reasons, it is equally correct to translate the following opening passages of Genesis to read (Genesis 1:1, 2.3, 26):

- In the beginning THE GODS [Elohim] created the heavens and the earth.  
(First heaven and earth was created.)
- And THE GODS [Elohim] said, Let there be light.
- And THE GODS [Elohim] divided the light from the darkness.  
(The earth rotated on its axis and Day and Night happened.)
- And THE GODS [Elohim] said, Let there be a firmament.  
(7 heavens were created)
- And THE GODS [Elohim] said, Let us create Adam in OUR image.  
(Physical man was created)  
(Brackets are mine.)

# Indra and Middle Eastern Religions & Buddhism

(According to Rig-Veda, the Sun was created first by Gods. Elohim (Savitr) manifested within the radiance of the Sun. The Sun-Savitr and Gods created earth and heavens. They provided the physical body for the Soul. We are traveler between Heaven and Earth till the Day of Judgment.)

Thus, the "first" (imperfect) Adam was created by the plural ELOHIM (the "us" in Genesis 1:26) over whom, according to Moses in Deuteronomy 10:17.

YHVH is "God of gods and Lord of lords."

It was not until the "Second" Adam (Genesis 2:6) that YHVH himself intervened to create a "perfected" mankind.

It is extremely important to remember that TWO versions of Adam, and not ONE, were created in Genesis. The "Imperfect" and "Perfect" Adams. They are as follows:

## **FIRST ADAM:**

- "Let US make man in OUR image, in the likeness of OURSELVES." (Genesis 1:26)
- Male and female created simultaneously (1:27)
- By the ELOHIM, not YHVH (1:26)
- "Blessed" by them but not given a "soul" (1:28)
- And told to multiply (1:28)

## **SECOND ADAM:**

- "YHVH fashioned man from the dust of the soil. Then he breathed into him a SOUL." (Genesis 2:5-7) (Created in the Paradise.)
- Man created without woman (2:18)
- By YHVH, not the Elohim (2:8)

# Indra and Middle Eastern Religions & Buddhism

---

- And, unlike the first Adam, was given a SOUL (2:7)
- And also dominion over Paradise (2:15)

This shows that Adam of the physical body is created by Elohim and it has Prana (Holy Spirit) inherent in it. The Prana sees and hears through the senses and thoughts are recorded in Prana as Mind.

These gods are the creators of galaxies, star systems and physical body of all life forms on earth. Angels worship Elohim who is present in the sphere of our Sun.

Adam of the Garden of Eden was created first by the Supreme Lord. Adam also is an eternal being. Adam is a Flame/Light being like Yahweh but he has desire to enjoy earthly life. Therefore Yahweh creates Adam's body (called Causal body) or Heavenly Adam and sends him down to the universe.

Cosmic Man called Virat Purusha, whose body is the universe, provides subtle body to casual body and sends it to Sun-earth system. Thereafter Sun-Savitr called Elohim created the physical body for heavenly Adam to undergo the experience of earthly life. Causal and physical bodies are both called Adam by Genesis.

All life forms including humans have two Adams within them. This earthly Adam has to spiritually awaken to the fact of heavenly Adam to go back once again to the presence of the Lord in this life itself and not wait till the Day of Judgment. But the Adam is controlled by Satan, the King of Demon who misleads the humanity from the path of the Lord.

So, Elohim and the Angels created the physical body. This can be understood by an example. Women become pregnant and the child

## Indra and Middle Eastern Religions & Buddhism

grows in the womb. It is Elohim and the angels who make the child grow in the womb. Prana / Holy Spirit is inherent within the baby.

After the women give birth, Heavenly Adam descends in the child's body. After birth, the baby breathes its own Prana. If for some reason Heavenly Adam does not descend into child's body, the baby may die. The Cosmic Man is breathing Prana and when his replica enters the baby only then the child starts breathing. Therefore the first breath of the child is most important.

Earthly Adam (Jiva), who was present in one of the seven heavens, also descends in the child's body as subtle mind with all his previous impressions. Five Pranas present within the child's body for the functioning of the physical body. It records whatever it experiences through the sense organs. This recording of thoughts is called Mind.

So, we have three bodies called Casual body, subtle body and Physical body. The Physical body has two other bodies called Pranamaya Sharira and Manomaya Sharira (Holy Spirit-Mind). It is called Jiva/Ghost. Those who are attached to earth are called ghost but those who go to one of the seven heavens have bright bodies called our Ancestors. Hence we have;

1. Casual body. Heavenly Adam of Paradise is present in it.
2. Subtle body replica of Purusha/Cosmic Man/Universe.
3. Physical body created by Elohim
  - 3a) Pranamaya Sharira and the other
  - 3b) Manomaya Sharira. (Both are called Holy Spirit-Mind/Jiva.)

Last two bodies are present within the physical body and it is called Jiva. After the death of the physical body, it becomes one with the earth, the casual and subtle body goes back to the Purusha (Universal

# Indra and Middle Eastern Religions & Buddhism

Man) and Jiva is judged by Yama and angels who record our deeds on earth present it to Yama for the Judgment.

Indra is the first to have Divine Mind. Indra is an emperor. Hence He rules over the entire creation. Indra goes wherever He wishes. Indra is a warrior God who always fights with Satan (Demon King Vrtrasura) present within humans to redeem his devotees. No one can question Indra. Indra is neither under the control of anyone nor do any angels question him. Whatever thought comes to the mind of Indra, the angels carry out the task.

To give an example, our body is created by Elohim. If our mind wishes to drink water, the body cooperates and the hand takes the cup, fills it with water and drinks it. There is no effort from our mind. Similarly Indra's thought is carried out by the angels.

For this reason Deuteronomy 10-17 states:

“YHVH (Indra) is the God of Elohim.”

### Genesis 1-1:

In the beginning God created the heavens and the earth. Now the earth was formless and empty, **darkness was over the surface of the deep**, and the Spirit of God was hovering over the waters.

Fig 1

# Indra and Middle Eastern Religions & Buddhism

Let us now remove the veil of Darkness and see what is inside the Darkness.

Within the womb of the Darkness is Holy Spirit and within Holy Spirit was earth without form. The earth without form means; all physical world including galaxies, suns, planets and all living beings exploded and became lifeless fundamental particles of nature. It was gathered by Indra in one place and it looks like an ocean flowing upwards. However Cosmic Man retains his form. There were two kinds of oceans; one Sweet Ocean and the other Salt & Bitter Ocean. There is a thin layer of separation between them.

Fig 2

# Indra and Middle Eastern Religions & Buddhism

Hence they cannot mix with each other. All forces (Holy Spirit) such as gravitational force, electro-magnetic force, strong force, weak force and many other unknown forces become one force after the destruction of the universe and it moves upon the surface of the water. All kinds of forces are called Holy Spirit. Darkness covered the Holy Spirit and the Ocean.

In the beginning of first creation Darkness was everywhere. From this Darkness rose an imperceptible form. In this imperceptible form was present the seed of creation. There was desire to create the universe in it. If there was desire in that imperceptible form then it must be Universal Mind. Universal Mind first enters Holy Spirit and creates chakras. She then enters Primordial Ocean along with chakras.

***Universal Mind has two poles of opposites; one Divine Mind  
the other Demonic Mind.***

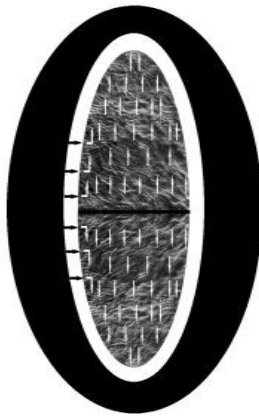

Universal Divine Mind enters Sweet Ocean along with Holy Spirit. The Sweet Ocean gets charged up by Holy Spirit it flows upward for creation. Similarly opposite pole of Universal Demonic Mind enters

Salt and Bitter Ocean along with Holy Spirit. The Salt and Bitter Ocean also gets charged up by Holy Spirit and flows downward for creation.

Fig 3

From Universal Mind comes out personalities of Gods and Demons. Indra and angels are present in Sweet Ocean. Demon King Vrtrasura (Satan) and demons are present in Salt & Bitter Ocean.

Fig 4

Angels created the Sun in Sweet Ocean.

The effulgence of the Sun disturbed Satan who was living peacefully in Salt & Bitter Ocean. Satan got annoyed rose up from below and covered the Sun and Sweet Ocean with darkness, built a fort around Sweet Ocean. Satan took the form a Leviathan Beast and slept around the Ocean. The Satan was disturbed because Gods and Demons see everything happening in the universe as it is happening in front of their eyes.

Fig 5

Microcosm is the replica of Macrocosm. Our subtle body is similarly occupied by Satan. Therefore we cannot see the “Kingdom of God”

present within us. Hence we cannot see Indra and angels present within us.

Fig 6

The Sun was covered in darkness. Sweet water stopped flowing Upward and the creation was stopped. Thereafter Indra fought with Satan and slaughtered him and pushed him into the pit below and closed it. The Sweet Water covered the Salt & Bitter Ocean from all side so that Satan may not come up again. Thereafter angels continued with creation. Indra established His Throne above the Sweet Ocean and watches everything happening in the universe. Universe is free from satanic influence but our subtle body a replica of the universe is occupied by Satan.

## Chapter 5: Indra and Holy Quran

*(One should understand that Holy Quran calls Brahman/Shiva /Darkness surrounding the universe as Allah. Supreme Lord Indra who is present in the Paradise beyond the universe is called Allah. Sun-Savitri or Prajapati is called Elohim in Jewish scriptures is also called Allah in Holy Quran. It is Elohim who has created seven heavens and earth including all species with physical body. All species are an expression of Allah only as He is present within them.)*

यो जात एव प्रथमो मनस्वान् देवो देवान् क्रतुना पर्यभूषत् ।  
यस्य शुष्माद् रोदसी अभ्यसेता नृम्णस्य महेना स जनासु इन्द्रः ॥१॥

“As soon as born, **he is the first to have the mind**. He surrounded the Devatas with effective will-force. By his impulsion both heaven and earth tremble with fear. He is repository of all manly powers. O men that is the (Devata) Indra.”

(RV 2-12-1 RLK) (Heaven and Earth too has Mind of their own.)

Indra was the first to have Divine Mind. If anyone claims that so and so God is the Supreme Lord; then one should question them; “Does that God has mind?” If the answer is yes, that means Indra was present even before him.

एता च्योत्नानि ते कृता वर्षिष्ठानि परीणसा । हृदा वीड्वधारयः ॥९॥

“These gigantic far reaching efforts (for creation) were put forth by you; you fixed them firm in your thought.” (RV8-77-9 SB)

(All creation is held by thought force of Indra)

ओजस्तदस्य तित्विष उभे यत्सुमवर्तयत् । इन्द्रश्चर्मवु रोदसी ॥९॥

# Indra and Middle Eastern Religions & Buddhism

---

“His might is manifest, for Indra folds and unfolds both heaven and earth, as (one spreads or rolls up) a skin.” (RV 8-6-5 SB)

Divine Mind and Demonic Mind are one mind with two poles of opposites, for example, light-darkness; wisdom-ignorance; love-hate, white-black, heat-cold, positive-negative, etc. The Universal Mind represents both the poles and it is eternal and imperceptible.

Mind can be compared to Bar Magnet. It has two opposite poles one pole called North Pole or positive pole and the other end is called Negative Pole or South Pole. Similarly Universal mind has Divine Mind and Demonic Mind. Two opposite end of ONE MIND.

It does not mean Satan has no knowledge. Indra and Satan have all the knowledge, because if one pole of mind is aware of any knowledge, simultaneously the other part of the pole will also know. For example humans are overpowered by Satan but scientists discover and invent many new things. That knowledge is also gained by Indra.

Both are equally strong. But Demon King Vrtrasura is the enemy of Indra; he is the enemy of Light, Wisdom and Love. Indra has created the universe and all species but all species and mankind is overpowered by Demon King. When we understand both the poles of the Universal Mind, then we come to know that:

Mind is Indra; Mind is Satan  
Mind is light; Mind is darkness  
Mind is consciousness  
Mind has infinite knowledge  
Divine Mind is the Creator, Sustainer and Destroyer of the universe

# Indra and Middle Eastern Religions & Buddhism

---

Demonic Mind cover us with darkness and ignorance.

## **The question is; who has occupied our Mind; Indra or Satan?**

What is the test whether our mind is occupied by Allah or Satan? When we close the eyes and look within; if we can see Allah, angels and Kingdom of God then we are under the protection of Indra. If we cannot see anything within us; that means we are ruled by Satan. Everyone except for those who are enlightened is under the influence of Satan. Satan has taken over our mind and controls all our activities.

Indra creates the universe but the King of Demons called Satan thrives in darkness and overpowers all species including humans with his power of darkness and ignorance. The Kingdom of Heaven present within us is not visible because Satan has overpowered us.

रूपरूपं मघवा बोभवीति मायाः कृण्वानस्तन्वं१ परि स्वाम् ।  
त्रिर्यद् दिवः परि मुहुर्तमागात् स्वर्गमन्त्रैरनुतुपा ऋतावा ॥८॥

“Maghavan (Indra) becomes repeatedly (manifest) in various forms, practicing delusions with respect to his own peculiar person; and invoked by his appropriate prayers, he comes in a moment from heaven to the three (times Agnihotra daily), and, although observant of seasons, is the drinker (of the Soma Juice) irrespective of seasons.” (3-53-8 SB)

Hence all forms of species are His forms only. Our Soul/Atma and Indra both appear like Flame/Light and both of them are present within us. If one wants to see Indra in human form, one has to perform Agnihotra. Indra comes down in human form from his abode to receive oblation in a moment.

Indra appears as Flame as well as in human form. Let us now look at other religions and how they saw the Supreme Lord.

# Indra and Middle Eastern Religions & Buddhism

- According to Rig-Veda, Indra appears as Flame but He also appears in human form to receive Heavenly Juice offered by his devotees.
- Within the Pyramid, Osiris appears as Flame and also in human form. The word Pyramid itself means Fire in the Middle.
- Moses saw Lord Yahweh as Burning Bush. That means Allah appears like Flame.
- On The Pentecost Day, Christians saw Fire, Holy Spirit and Tongues of Fire descend upon the head of Apostles and few Christians. Lord and our soul appear like Tongues of Fire.
- The Holy Quran also states that Allah appears as Flame/Light.

## **IMPORTANT VERSES OF HOLY QURAN**

“And this Quran is such that it could not be composed by any unless it be revealed from Allah. It is a confirmation of the revelation made before it and a detailed exposition of the Book. Beyond doubt it is from the Lord of the entire Universe.” Holy Quran 10-37)

In the course of my study I found that all religions are speaking the same truth but the followers had no understanding of the glory of God. Even after giving revelations to many tribes, people have deviated from them because they could not understand the revelations. This is how ancient people deviated from the revelation. Therefore the Holy Quran states:

“And believe in the Book which I have revealed and which confirms the scripture you already have, and be not foremost among its deniers. Do not sell my signs for a trifling gain, and beware of My wrath.” (Holy Quran 2-41)

# Indra and Middle Eastern Religions & Buddhism

---

“And this Quran is such that it could not be composed by any unless it be revealed from Allah. It is a confirmation of the revelation made before it and a detailed exposition of the Book. Beyond doubt it is from the Lord of the entire Universe.” (Holy Quran 10-37)

(I am of the view that the above verse is speaking of Rig-Veda. Holy Quran sheds light on Rig-Veda 10<sup>th</sup> Mandala, Sukta 129 on Salila/Primordial Ocean.)

**Rig-Veda shed light on how the creation began.  
Holy Quran describes how the destruction of the universe happens.**

**All creation is by Primordial Ocean and Holy Spirit (Vayu)**

“And He it is Who has joined the two seas; one sweet and palatable and the other salt and bitter; and He has set a barrier and an insurmountable obstruction between the two that keeps them apart.” (Holy Quran 25-53)

“He unleashed the two seas so that they merge together, and yet there is a barrier between them which they may not overstep.” (Holy Quran 55-19, 20)

“We made every living being out of water.” (Holy Quran 21-30)

We have seen already that there are two kinds of Primordial Water called Sweet and Salt Ocean. They are nothing but forceless sub atomic particles..

The Holy Quran states not only man but all species were created by water. It speaks about two seas; which sea is it and where is it?

# Indra and Middle Eastern Religions & Buddhism

---

Let us also see what the other divine revelations say about water:

- The Rig-Veda states that everything is created by water and the throne is established above the water.
- The Pyramid texts state that all creation originated in water and gets destroyed in water.
- The Genesis too states that there was water in the beginning.

According to all these revelations **water was the source of creation.** The Holy Quran is not speaking about seas of the earth. To understand what these two oceans are, we will have to look at the Holy Quran to understand how the universe was destroyed.

## **Destruction of the Universe**

“Did the unbelievers not realize that the heavens and the earth were one solid mass, then We tore them apart, and **We made every living being out of water?** Will they, then not believe (that We created all this)?” (Holy Quran 21-30)

“On that day **We shall roll up the heavens like a scroll for writing.** Even as We originated the creation first so **We shall repeat it.** This is a promise binding on Us; and so We shall do.” (Holy Quran 21-104) (According to this verse the creation and dissolution is cyclic.)

“O mankind, fear the (wrath of) your Lord! Indeed, the quake of the Hour (of Judgment) will be an awesome thing.” (Holy Quran 22-1)

“Then there will simply be one single blast, and all will have gathered before us.” (Holy Quran 36-53)

## Indra and Middle Eastern Religions & Buddhism

---

The unbelievers say: “Shall we direct you to the man who tells you that when you have been utterly broken to pieces, you will be raised to life again?” (Holy Quran 34-7)

Lord withdraws the four forces (Vayu/Holy Spirit) of nature from the creation of the universe. While withdrawing the forces there will be a great vibration. Thereafter there will be one single universal blast in the process of withdrawal of forces. All galaxies, stars and planetary systems will explode and all the atoms will disintegrate. Atoms will become lifeless sub-atomic particles and will be blown across the space. Then these lifeless fundamental particles will be gathered like a heap of sea together by the will of the Lord. Immediately all Adams (Light/soul) will return to the presence of Allah in the Garden of Eden.

When lifeless fundamental particles are gathered they will behave like an ocean (one solid mass of water). Heaven and earth will become one and there will be no sky as it will be occupied by water. The lifeless sub-atomic particle of ocean is called **Primordial Ocean**. This ocean is so huge that our mind cannot visualize or measure it.

**This shows that Force and Matter are different and they are not interchangeable as believed by the scientists.**

The Holy Quran states that there are two kinds of ocean in this Primordial Ocean; while one ocean is sweet, the other is bitter and salty. Allah and the Angels reside in the sweet ocean and Satan and the demons reside in the salt and bitter ocean. These oceans do not mix with each other as there is a barrier between them but Allah or Satan can cross over to the other side. Normally Angels don't cross over but Satan and his followers cross over to stop th creation of the suns because their radiance trouble the Demons residing in darkness.

# Indra and Middle Eastern Religions & Buddhism

Remember that the Satan and demons are the opposite pole of Divine Mind.

The scientists in their search for answers to the riddle of the universe state that the universe is governed by four forces of nature called Gravitational force, Electro-magnetic force, Strong force and Weak force. These forces have originated from the Holy Spirit. Allah at the time of dissolution withdraws these forces and immediately the universe will be blown off. Once again these forces become one and it will move on the surface of Primordial Ocean.

Scientists also state that if the observable universe is created by matter, then there should be anti-matter as well. They are searching the deepest corners of the universe to find anti-matter. Till now they have not found it and they will not find it in future also because **Salt and Bitter Ocean is the ocean of anti-matter** and it is covered by Sweet Ocean on all sides.

**Salt and Bitter Ocean is also present within us.**

No one could understand the message of the Holy Quran and other revelations including Hindus. All people on the earth especially Hindus are misled by their own scriptures.

**Why is the Sweet Ocean sweet?**

It is because all the juice of heaven, i.e., pure water, milk, honey and wine (Soma) is present in Sweet Ocean too. It also contains all the medicinal properties. It is the Universal Divine Mind who mixes these juices to the ocean. Those who perform Fire Sacrifice extract the wine present in ocean or from the Moon present within us and offer it to Allah for defeating Satan present within us.

# Indra and Middle Eastern Religions & Buddhism

---

## **Creation is cyclic in nature**

“Did we, then, become worn out by the first creation? Not at all; but they are in doubt about a fresh creation.” (Holy Quran 50-15)

“To Him is your return. This is Allah’s promise that will certainly come true. Surely it is He Who brings about the creation of all and He will repeat it so that He may justly reward those who believe and do righteous deeds....” (Holy Quran 10-4)

After the dissolution of the universe we all will go to the Lord’s presence and be with the Lord till the next creation begins. The creation is repeated to reward righteous people but that also means all those who are unrighteous will also be reborn to undergo life’s lessons.

Kings of highest spiritual order, prophets, masters and yogis will remain in the presence of the Lord for all time. Those who are not perfected by Allah have to come down to earth once again to undergo the life lessons. The only way to come out of this cycle of repeated birth and death is to be perfected by Allah.

## **Glory of Allah**

“Your God is One God, there is no God but he; the Most Merciful, the Most Compassionate.” (2-163)

“Surely your Lord is Allah, Who created the heavens and the earth in six days, then established Himself on the Throne, governing all affairs of the universe. None may intercede with Him except after obtaining His leave. Such is Allah, your Lord; do therefore serve Him. Will you not take heed?” (Holy Quran 10-2 and 3)

(Creation takes place with lightening speed but species evolve according to the situation.)

## Indra and Middle Eastern Religions & Buddhism

---

“The Most Compassionate Lord is settled on the Throne.” (Holy Quran 20-5)

“To Him belongs all that is in the heavens and all that is in the earth, and that is in between, and all that is beneath the soil.” (Holy Quran 20-6)

“And He it is Who created the heavens and the earth in six days- and (before that) His Throne was upon the waters....” (Holy Quran 11-7)

(Allah is the Supreme Lord; none can surpass him in his glory. The Lord’s Throne is on top of the universe that is created by water (Primordial Ocean))

“Verily He encompasses them and has counted them all.” (Holy Quran 19-94)

(Lord as Divine Mind has encompassed all gods, all species and the universe. The Lord knows each and every one of them.)

“He is the originator of the heaven and the earth; whenever He decrees a matter He (merely) says; ‘Be’ and it is.” (Holy Quran 2-117)

Allah does not do any work, he just thinks and the work is done by angels. Whatever Allah thinks the angels carryout his command.

“It is Allah Who created the heavens and the earth and all that is between the two in six days; and then He established Himself on the Throne....” (Holy Quran 32-4)

(First the galaxies are created. Thereafter Sun and earth (planets) are created. After creating the earth, all species were created. Thereafter Elohim created seven heavens.)

## Indra and Middle Eastern Religions & Buddhism

---

“He governs from the heaven to the earth and then record (of this governance) goes up to Him in a day whose measure is a thousand years in your reckoning.” (Holy Quran 32-5)

“Allah is my Lord and your Lord, therefore, serve Him. That is the Straight Way.” (Holy Quran 43-64)

“He it is Who is God in the heavens and the earth. He is the Most Wise, the All-knowing. Blessed is He Who has dominion over the heavens and the earth and all that is between them. With Him is the knowledge of the Hour; and to Him you shall all be sent back.” (Holy Quran 43-84, 85)

“To Him belongs whosoever dwells on the heavens and on earth. Those (angels) that are with Him neither disdain to serve Him out of pride, nor do they weary of it.” (Holy Quran 21-19)

(Angels Called Gods/Devatas in Rig-Veda, are always awake. They neither close their eyes nor get tired like us. We get tired because of the physical body but angels do not have a physical body. They are present in the Sun, star systems and galaxies. They are also present within all species. Therefore our body is the temple of Allah and Gods.)

### **Allah represents Light & Wisdom**

Wisdom can only be in the mind, therefore Allah represents Divine Mind. With his will power Allah takes the human form that radiates golden rays. Read the verses below.

“They seek to extinguish the Light of Allah by blowing through their mouths; but Allah refuses everything except that He will perfect His Light howsoever the unbelievers might abhor it.” (Holy Quran 9-32)

## **Indra and Middle Eastern Religions & Buddhism**

---

There is no need to perfect Allah's Light. **Our Light is the one to be perfected because we have desire.** Allah has placed part of his Light within all species and this Light is called our soul. Every soul has its own mind and desires. This soul resides within the eight petal lotus. Our soul is an eternal being. In the beginning the soul was created once but we don't know when it was because many cycle of creation has taken place.

### **Does that mean there are two Flames/Light of Allah?**

Yes. One is the individual Soul that is within the eight petal lotus and the other is Allaha's Flame/Light that is within the cave of the subtle body.

“Believers, turn to Allah in sincere repentance; may be your Lord will expunge your evil deeds and admit you to the Gardens beneath which rivers flow. This will be on the Day when Allah will not disgrace the Prophet and those who have embraced faith and are with him; their light will be running before them and on their right hands and they will say: “Our Lord, perfect for us our light and forgive us. Surely You have power over everything.” (Holy Quran 66-8)

The Light mentioned here is our Atma/Flame/Light. All believers will have to wait till the Judgment Day for entering the Garden of Eden but they cannot enter the palace of the Lord. Only a perfect person purified by Allah can directly enter the palace and be with the Lord after his death on earth.

### **Allah is Light but can we see Allah**

Allah is Light but the Lord is also Divine Mind. Mind has no form. But by his mind-power Allah can take any form as the devotee wishes. Allah wears the Breath (Holy Spirit) as body. Allah and the angels

# Indra and Middle Eastern Religions & Buddhism

---

appear in Hyper Space. Therefore we cannot see with physical eyes but one can see with the inner eye.

Allah appears as Flame and he is sitting on the Throne within the Flame. While killing Demons and for receiving oblation in Agnihotra, he appears in human form. Golden Rays are emanating from his body. Rig-Vedic sages in their knowledge about the abode of Allah have fixed Allah's form as 16 years old, with slim body, wearing jewels and a crown. Allah is wearing a one piece garment and sitting on the Universal Throne.

I also saw Allah as stated above. I never prayed nor knew who the Supreme Lord was. Yet in that auspicious moment in 2011, Allah blessed me with his vision.

If someone wants to see the Lord in human form as seen by the sages, then they have to perform Fire Sacrifice (Agnihotra) and offer Heavenly Wine (Soma Juice) to the Lord. Only then Allah will appear in human form to receive the wine very dear to Him (See chapter 1 on Soma Juice). Allah appears to those sages as they visualize them. Jews, Christians and Muslims see different form of Allah hence we must request Allah to give his vision in the form that Rig-Vedic sages saw.

## **Worship only Allah**

“Call upon your Lord with humility and in secret. Surely He does not love the transgressors. And do not make mischief in the earth after it has been set in order, and call upon Him with fear and longing. Surely Allah's mercy is close to those who do good.” (Holy Quran 7-55, 56)

(We have to pray in secret and not in a public gathering. Public prayer is only to show unity.)

## Indra and Middle Eastern Religions & Buddhism

---

“Truly it is only associating others with Allah in His Divinity that Allah does not forgive and forgives anything besides that to whomsoever He wills. Whoever associates others with Allah in His Divinity has indeed strayed far away. (Holy Quran 4-116)

(Here the verse is speaking about Allah being associated with other Gods and the temple deity called ‘Deity of Holy Spirit/Prana Devata’ as Indians do.)

### **Rivers of Paradise**

After the judgment of all of us, Allah blesses us to be happy in Paradise. All will be happily residing there. All their wishes will be fulfilled instantly. Many kinds of juices will be provided for their enjoyment. There are four kinds of rivers of juice flowing in Paradise. One is of pure water, the second is river of milk, the third is river of honey and the fourth is honey-coloured juice called **Soma Juice** in Rig-Veda. This is similar to an intoxicating drink of the earth but there is a difference. This does not cause hangover or cause any harm. So let us read some Surahs of Holy Quran.

“Here is the parable of paradise which the God-fearing have been promised: in it shall be rivers of incorruptible water; rivers of milk unchanging in taste, and rivers of wine, a delight to those that drink; and rivers of honey, pure honey.....” (Holy Quran 47-15)

“They will be seated upon the couches set face to face; a cup filled with wine from its springs, will be passed around to them; white, sparkling (wine), a delight to the drinkers. There will neither be any harm in it for their body nor will it intoxicate their mind.” (Holy Quran 37-45 to 48)

## **Indra and Middle Eastern Religions & Buddhism**

---

“This will be a gushing spring where from Allah’s servants shall drink wine, a spring from which they will take out channels wherever they wish.” (Holy Quran 76-6)

“Therein they shall be served a cup flavoured with ginger drawn from a spring (in Paradise) called Salsabil” (Holy Quran 76-17)  
(This ginger juice will be served only when they drink too much wine.)

### **Where do these springs of juice originate from?**

The springs originate from the highest point of Paradise.

### **No difference between men and women in Paradise**

We have read that humans and all species are outer forms of Allah only. Therefore there is no difference between soul of men and women. Our soul can take whatever form they like in Paradise. The difference between men and women is only in the creation of physical bodies created by Elohim. Similarly all animals, birds, trees and plants belong to the same category as humans.

“There is no animal that crawls on earth and no bird that flies with its two wings but are communities like you. We have neglected nothing in the Book (of decree). Then to the Lord will they all be mustered. (Holy Quran 6-38)

### **All creation sings his glory**

“The seven heavens, the earth, and all that is within them give glory to Him. There is nothing but gives glory to Him with His praise, though you do not understand their hymns of praise. He is Most Forbearing, Exceedingly Forgiving.” (Holy Quran 17-44)

Heaven and Earth are living entities. Mother Earth is goddess and we all are her children. In fact the whole universe is a living entity. They

# Indra and Middle Eastern Religions & Buddhism

---

have their own mind and they sing the glories of the Lord. (Read chapter on Heaven and Earth in Part I)

The universe has billions of galaxies, star systems, planets and life forms. The number of species present among these systems is unimaginable. All creation is held by the thought force of Allah. Compare this to our capacity. We cannot even hold one thought continuously for 10 seconds.

“These gigantic far reaching efforts (for creation) were put forth by you; you fixed them firm in your thought (O Indra).” (8-77-9 SB)

## **Let Allah be your guide**

Our prayer and our obedience are to Allah alone and not to the command of any mortal including Imam, Pastor or priest. Listen to the words of Allah only.

“The life of this world is nothing but a sport and a pastime, and the life of the hereafter is far better for those who seek to ward off their ruin. Will you, then, not understand?” (Holy Quran 6-32)

(Few people think that without the physical body how one can enjoy the heavenly gifts. But Allah says Life in the Garden of Eden is far superior to the life on earth. In fact it is not the physical body but it is our mind that enjoys. Physical body has a limitation to enjoy as it gets tired after sometime.)

“Lo, it is to Him alone that you cry and then, if He so wills, He removes the distress for which you had cried to Him. Then you forget the partners you had set up with Allah.” (Holy Quran 6-41)

“But when misfortune befell them from Us why did they not humble themselves? Their hearts had hardened and Satan had made their deeds seem fair to them. (Holy Quran 6-43)

### **Allah will direct us to the right path**

“Except the one who created me; and, behold, it is He who will direct me to the Right Way.” (Holy Quran 43-27)

“Allah is my Lord and your Lord, therefore, serve Him. That is the Straight Way.”(Holy Quran 43-64)

“He it is Who is God in the heavens and the earth. He is the Most Wise, the All-knowing. Blessed is He Who has dominion over the heavens and the earth and all that is between them. With Him is the knowledge of the Hour; and to Him you shall all be sent back.”  
(Holy Quran 43-84, 85)

“All that is in the heavens and the earth extols the glory of Allah. He is the Most Mighty, the Most Wise. His is the dominion of the heavens and the earth. He gives life and causes death, and He has power over everything. He is the First and the Last, and the Manifest and the Hidden, and He has knowledge of everything.”  
(Holy Quran 57-1, 2, 3)

### **Is Allah too far from us?**

Allah is present within the cave of our heart also.

“Surely We have created man, and We know the promptings of his heart, and We are nearer to him than even his jugular vein. Moreover, there are two scribes one each sitting on the right and the left, recording everything. (Holy Quran 50-16, 17)

## Indra and Middle Eastern Religions & Buddhism

(It is not a physical heart as Sufis believe. In spiritual terms, heart means centre of the chest of the subtle body. There is a cave here in which Allah is present.)

“Or do they think that We do not hear their secret talks and their whispering counsels? Yes, indeed We do and our messengers (i.e., angels) are with them, writing. (43-80)

The above verses state that Allah is closer than the jugular vein. That means Allah is within everyone. If everyone understands this, then how can they hate or kill anyone in anger or in revenge or with any excuse? What will Allah think of the killers? Will Allah feel happy or will he get angry about killing his creation? Where will Allah send the killer to; paradise or hell?

It is Allah who sees everything and judges everybody in the Paradise. Our duty is to pray for our deliverance and free us from our troubles. Holy Quran is not speaking of Muslim Brotherhood but speaking of Universal Brotherhood (Vasudaiva Kutumbhakam). Verse 9-32 states that Allah will perfect His Light (our soul) howsoever the unbelievers might abhor it.

### **Is Allah present in two places?**

Allah takes multiple forms. Allah has established his throne above the universe after defeating Satan. He is also present within the heart of all species. Similarly angels also take multiple forms and they are within galaxies, suns and present within all living beings.

“And He it is Who created the heavens and the earth in six days- and (before that) His Throne was upon the waters....” (Holy Quran 11-7)

“... We are nearer to him than even his jugular vein....” (Holy Quran 50-16)

## Indra and Middle Eastern Religions & Buddhism

---

Water (Salila/Primordial Ocean) is the material for the creation of universe. This sentence means that the Lord is beyond the universe but he is also residing within the cave of the heart of all species. This proves that Allah is present in the highest heaven beyond the universe; he is also present within us and as an individual Soul.

Our body, a microcosm is the replica of the universe; hence Allah is within our heart as well as on top of the universe. The paradox is; when a yogi leaves the body through the Narrow Gate, he will reach the Lord present above the universe.

### **Everything happens according to the will of the Lord**

“Are you not aware that the dominion of the heavens and the earth belongs to Allah, and that none apart from Allah is your protector or helper? (Holy Quran 2-107)

Where is the question of boundary disputes and fights for it when everything belongs to Allah? But it does not mean one can go to any one's house, village or nation without the explicit permission of the person or government. The only question is; are you living in oppressive society or in a democratic set up? Allah's kingdom is one of democracy. Allah has given full freedom to do as we wish but once we do any action then we are bound by the Divine Laws.

“He is the originator of the heaven and the earth; whenever He decrees a matter He (merely) says; ‘Be’ and it is.” (Holy Quran 2-117)

Look at the Rig-Veda mantra. Whatever Indra thinks the Gods carryout his command.

## Indra and Middle Eastern Religions & Buddhism

---

“As soon as born, he is the first to have the mind. He surrounded the Devatas with effective will-force. By his impulsion both heaven and earth tremble with fear. He is repository of all manly powers. O men that is the (God) Indra.”

(RV 2-12-1 RLK)

Allah and the angels have oneness of opinion and harmony and follow the Divine Laws. If any god is called first to drink Soma Juice, other gods don't feel bad about it nor do they have “I am greater than thou” attitude. Allah is sitting on the Universal Throne ruling the universe and seeing and hearing everything happening in the universe.

It is similar to our body. Our mind is the lord of our body. If we are thirsty, spontaneously our body cooperates and drinks water. There is least resistance either from our mind or body. Similarly all the wishes (thoughts) of Allah are carried out by the gods.

### **Satan will try to bring righteous people to the wrong path**

“O people! .... Follow not in the footsteps of Satan. For surely he is your open enemy; he only commands you to do evil and commit acts of indecency and to ascribe to Allah the things concerning which you have no knowledge (that Satan really is their source).

(Holy Quran 2-168, 169)

“If the God-fearing are instigated by any suggestion of Satan, they instantly become alert. Where after they clearly perceive the Right Way.” (Holy Quran 7-201)

“As for their brethren (the Satans), they draw them deeper into error and do not relax in their efforts.” (Holy Quran 7-202)

(Those who terrorize people or those who create disharmony in the society or those who preach hatred or instigate people to commit sins

## **Indra and Middle Eastern Religions & Buddhism**

---

in the name of Allah must understand that their acts are directed by Satan. The funniest part is that all religions want go back to their imagined pristine days of the old.)

### **Allah delivers us from the Darkness of Satan**

“Through which Allah shows to all who seek to please Him the paths leading to safety. He brings them out, by His leave, from darkness to Light and directs them on to the Straight Way.” (Holy Quran 5-16)

“Allah is the Guardian of those who believe, He brings them out of every darkness into Light. And those who disbelieve, their guardians are the evil ones; they bring them out of light into all kinds of darkness. These are destined for the Fire, and there shall they abide.” (Holy Quran 2-257)

(The above verse clearly states that Allah will save those who are in the path of Light. However demons will not allow us to go towards light. We commit many sins in ignorance and we have to pay for it)

“... This is a book which We have revealed to you that you may bring forth mankind from every kind of darkness into light, and direct them, with the leave of their Lord, to the Way of the Mighty, the Innately Praiseworthy.” (Holy Quran 14-1)

“... It is Allah alone Who guides to the Truth ...” (Holy Quran 10-35)

### **Because of this darkness and ignorance**

“Most of them only follow conjectures; and surely conjecture can be no substitute for the Truth. Allah is well aware of whatever they do.” (Holy Quran 10-36)

# Indra and Middle Eastern Religions & Buddhism

---

## **Everyone should be educated because from that we develop reasoning power**

“Among them are also the unlettered folk who do not know about the scriptures but cherish baseless wishes and merely follow their conjectures.” (Holy Quran 2-78)

Education is a must for everyone. An educated person can grasp things more quickly than the uneducated. Because of their ignorance, people have many doubts and unnecessary questions are asked. Hadiths were written because of these questions.

## **Revelations were sent to all tribes**

“Surely Allah conferred a great favour on the believers when He raised from among them a messenger to recite to them His signs, and to purify them, and to teach them the Book and Wisdom. For before that they were in manifest error.” (Holy Quran 3-164)

“He is the originator of the heavens and the earth. How can He have a son when He has no mate? He has created everything and He has full knowledge of all things.” (Holy Quran 6-101)

“(O Muhammad), even before you, We never sent any other (*god/gods*) than human beings as Messengers, and to them We sent revelation. Ask the people of the Book if you do not know.” (Holy Quran 21-7)

(This verse clearly rejects the concept of Avatar, God coming down to earth to guide mankind. Lord is already within us. Allah and all gods are within us, they can guide us through intuition. Hence there is no need for the Lord to take birth. However the personality and quality of the mind differs from mind to mind. Some are like Kings; some are like saints.)

# Indra and Middle Eastern Religions & Buddhism

---

“To Him belongs whosoever dwells on the heavens and on earth. Those (angels) that are with Him neither disdain to serve Him out of pride, nor do they weary of it.” (Holy Quran 21-19)

Angels are always awake. They do not close their eyes or get tired like us. They are in the Sun, star systems and galaxies and they are present within all species. A person gets tired because of the physical body but angels have spirit bodies.

## **People were misled by not understanding the Revelation**

“Indeed some people before you had asked such questions and in consequence fell into unbelief.” (Holy Quran 5-102)

(Vedic people started asking questions among themselves instead of asking for guidance from the Lord. Hence many scriptures were written by the sages of India.)

“And yet some people have come to associate the *Jinns* with Allah in His divinity, even though it is He who created them; and in ignorance they impute to Him sons and daughters. He is Holy and Exalted far above that which they attribute to Him” (Holy Quran 6-100)  
(I think *Jinns* are Prana Devatas or Evil Prana Devatas.)

“He is the originator of the heavens and the earth. How can He have a son when He has no mate? He has created everything and He has full knowledge of all things.” (Holy Quran 6-101)  
(Hindus believe all Gods have wives, which is a misconception.)

## **Regarding caste system**

Say: “Take on Allah’s colour (*Varna*).” And whose colour is better than Allah’s? It is Him that we serve.” (Holy Quran 2-138)

# Indra and Middle Eastern Religions & Buddhism

One should not differentiate between *Varnas* (castes) like Brahmana, Kshatriya (warrior class), Vaishya (business class), Shudra (lower caste), etc.

(*Varna*: The dictionary gives the following meaning; a colour, a kind, a species, a class, a race, a tribe or a caste like Brahmana, etc.)

## **Can you force anyone to believe in Allah?**

“No one can believe except by Allah’s leave, and Allah lays abomination on those who do not use their understanding.” (Holy Quran 10-100)

“Had your Lord so willed, all those who are on earth would have believed. Will you, then, force people into believing?” (Holy Quran 10-99)

It is not our duty to forcefully convert others or instill fear to follow the path of Allah or commit crime in the name of Allah. This act of conversion is driven by Satan. Don’t the followers see that the Kingdom of Allah is democratic and gives full freedom for his citizens to do whatever they like? Once they do any action then they are bound by the laws of Allah.

Dictators, army generals and political ideologues who enslave and kill their own people or occupy other nations will be punished. Here is a lesson for those who enforce strict adherence of Islamic/Hindu/Christian/Jewish law or communism.

## **Do only Jews and Christians go to heaven?**

“They say: “None shall enter the Garden unless he be a Jew or a Christian.” These are their vain desires. Say: “Bring your proof if you are speaking the truth.” (Holy Quran 2-111)

## Indra and Middle Eastern Religions & Buddhism

“(None has any special claim upon reward from Allah.) Whoever submits himself completely to the obedience of Allah and does good (deeds), will find his reward with his Lord. No fear shall come upon them, nor shall they grieve.” (Holy Quran 2-112)

Everyone is responsible for himself. No One has any special claim; be it a Jew, Christian, Muslim, worshipper of Shiva or Vedic people. Look at the statement of Jesus below.

Mathew 7-22: Many will say to me on that day, ‘Lord, Lord, did we not prophesy in your name and in your name drive out demons and in your name perform many miracles?’

Mathew7-23: Then I will tell them plainly, ‘I never knew you. Away from me, you evil doers!’.

If this is the case of pastors and learned saints, just think what would happen to ordinary Christians.

### **Any official or those in power should not abuse their subordinates**

“Allah does not like speaking evil publicly unless one has been wronged. Allah is All-Hearing, All-Knowing.” (Holy Quran 4-148)

(When those in power realize Allah is within everyone; how can they abuse anybody or have grudge against anybody. When they take to task anybody it should only be for the work to be done properly but they should not treat anyone badly.)

### **Allah does not like unnecessary promises**

# Indra and Middle Eastern Religions & Buddhism

---

“Allah does not take you to task for the oaths you utter vainly, but He will certainly take you to task for the oaths you have sworn in earnest....” (Holy Quran 5-89)

## **Allah on homosexuals**

“And remember when We sent Lot (as a messenger) to his people and he said to them; “Do you realize that you practice an indecency of which no other people in the world were guilty of before you? You approach men lustfully in place of women. You are a people who exceed all bounds.” (Holy Quran 7-80, 81)

One simple question; is homosexuality or multiple sex activities, the work of Satan or God? It seems many people of the Middle East and Western culture were homosexuals and this disease is spreading fast all over the world. Some people defended it as LOVE but it is Love from Satan. He wants all of us to become immoral. There is a lesson for every nation here.

God does not like those nations that are immoral, nations who legitimize and indulge in homosexuality, pornography, the abuse of drugs and commit crimes like destroying or enslaving other nations, etc. When the society is degraded or nations become sick due to the influence of Satan; God destroys them for the good of other nations. History is replete with many examples. Many civilizations have been destroyed.

**Some nations, religious groups and people are destroying nations, creating an atmosphere of fear, rumors of war, looting, rape and murder of innocent people.**

What awaits them? Read the verses of Allah.

## Indra and Middle Eastern Religions & Buddhism

---

“Among people there is a kind whose saying on the affairs of the world fascinate you: he calls Allah again and again to bear the testimony to his sincerity; yet he is most fierce in enmity. Whenever he attains authority, he goes about the earth spreading mischief and laying to waste crops and human life, even though Allah (whose testimony he invokes) does not love mischief.” (Holy Quran 2-204, 205)

(Many nations and all religious groups including Hindus have behaved in similar fashion. People think that they can bribe Allah after looting public money or practice bribery and corruption and later give donations to place of worship.)

“Do you enjoin righteousness on people and forget your own selves even though you recite the Scripture? Have you no sense?” (Holy Quran 2-44)

“Who break the covenant of Allah after its firm binding, and cut asunder what Allah has commanded to be joined, and spread mischief on earth. They are the utter losers.” (Holy Quran 2-27)

“.....Surely He does not love the transgressors. And do not make mischief in the earth after it (Islam) has been set in order...” (Holy Quran 7-56)

(Wahabis, Talibanis, ISIS and other terrorist organizations listen to Allah. The Lord knew that these believers will behave in this way. Allah knows the past, present and future events beforehand. The same message applies to the Jews, Christians and Hindus who destroys nations or create disharmony in societies. Forget about paradise; just imagine what would happen to such people.)

## Indra and Middle Eastern Religions & Buddhism

“Therefore We ordained for the Children of Israel that he who slays a soul unless it be (in punishment) for murder or for spreading mischief on earth shall be as if he had slain all mankind; and he who saves a life shall be as if he had given life to all mankind. And indeed again and again did our Messengers come to them with clear directives, yet many of them continued to commit excesses on earth.” (Holy Quran 5-32)

The leaders who support or just keep quiet or those who instigate people in the name of religion, in support of fundamentalism or nationalism, shall not escape punishment. Hindu scriptures state that a part of sin committed by people shall go to the king. Similarly people will receive a part of sin committed by the king.

“Surely you have nothing to do with those who have made divisions in their religion and have split into factions. Their matter is with Allah and He will indeed tell them (in time) what they have been doing.”

(Holy Quran 6-159)

(Indians, Sunnis, Shia, Christians and other sects, be careful.)

“But people later cut up their religion into bits, each group rejoicing in what they have. So leave them immersed in their heedlessness till an appointed time.” (Holy Quran 23-53, 54)

(This message of Allah applies to all religions. Now the situation is such that the most educated are deluded. There is no use in enforcing Allah’s way on others. Those in power do not believe in God and even if they do, they do not know that they are under the influence of Satan.)

Those who create turmoil in the society terrorize people and those who are corrupt; they must read the following verse:

# Indra and Middle Eastern Religions & Buddhism

---

“And the Judgment shall doubtlessly take place.” (Holy Quran 51-6)

All religious groups must be very careful because their actions are driven by Satan. Many of them believe that they are protesting, attacking others or teaching them lessons in the service of their God and religion.

## **Can we attain Allah by Crusade or Jihad?**

Allah cannot be attained by crusade or jihad but easily obtained by singing praises to him along with righteous living. If one wishes to go to Allah’s Paradise in this life itself, then they will have to search for a teacher who can guide them. Look at the verse of Rig-Veda.

“He who is not to be attained by violence but easily propitiated by those who praise him with sacred hymns, parted the spheres of heaven and earth, like the Sun in the august and most excellent sky.” (RV 1-62-7 SB)

## **Muslims pray 5 times a day but what does the Holy Quran state?**

“.... And remember your Lord much and exalt (Him with praise) in the evening and morning.” (Holy Quran 3-41)

“And remember, (O Prophet), your Lord in your heart with humility and fear and without raising your voice; remember Him in the morning and evening and do not become of those who are negligent.” (Holy Quran 7-205)

(Prayers for one hour starting from forty-five minutes before sunrise is the most beneficial time for getting the blessings of the Lord. This is the time the Supreme Lord and Elohim blessings pour on those who are praying. Those who are free may worship Allah in the afternoon. However Agnihotra should be performed only after Sunrise.)

# Indra and Middle Eastern Religions & Buddhism

---

However Prophet Mohammed (PBUH) got the permission to pray 5 times a day from Allah.

## **Idol worship as Deity of Holy Spirit (Prana Devatas)**

“And recall when Abraham said to his father, Azar: “Do you take idols for gods? I see you and your people in obvious error.” (Holy Quran 6-74)

“Surely the hypocrites shall be in the lowest depth of the Fire and you shall find none to come to their help.” (Holy Quran 4-145)

“When our messengers (the angel of death and his assistants) come to them to take their souls, they (the angels) will say: “Where are those whom you used to invoke and worship besides Allah,” they will reply, “They have vanished and deserted us.” And they will bear witness against themselves, that they were disbelievers.” (Holy Quran 7-37)

“God does not forgive idol worship (if maintained until death), and He forgives lesser offenses for whomever He wills. Anyone who idolizes any idol besides GOD has strayed far away. (Holy Quran 4-116)

“It has been revealed to you and to those before you that if you ever indulge in idol worship, all your works will be nullified, and you will be with the losers.”  
(Holy Quran 39-65)

Temple worship is waste of time. One may benefit from the Prana Devata in short term but spiritually it is of no use. This also leads to imagination of mind. On the day of dissolution of Heaven and Earth, all the souls assemble before the Lord. On that day the Lord questions those who were worshipping the idols to call their Gods to see if they can be saved from punishment for their mistake.

# Indra and Middle Eastern Religions & Buddhism

We have read that idols are nothing but “Prana Devatas”. When the universe dissolves, all forces will be withdrawn and the Holy Spirit (Prana) merges and become one force. The Holy Spirit present in the deity also gets dissolved and becomes one force. The Holy Spirit then moves on the surface of the water and it loses its personality and mind.

Deity or Prana Devatas are created by humans but Gods are sons of Aditi.

## **Allah’s question to those who are misled**

“And when they are told: “Follow what Allah has revealed,” they say; “No, we shall follow what we found our forefathers adhering to.” What! Even if their forefathers were devoid of understanding and right guidance?” (Holy Quran 2-170)

## **You are responsible for yourself**

“Believers, take heed as regards your own selves. If you are rightly-guided, the error of he who strays will not harm you. To Allah will all of you return; then He will let all of you know what you did.” (Holy Quran 5-105)

## **How should we behave with others?**

“Do not (contemptuously) turn your face away from people, nor tread haughtily upon earth. Allah does not love the arrogant and the vain glorious. Be moderate in your stride and lower your voice. Verily the most disgusting of all voices is the braying of the donkey.” (Holy Quran 31-18, 19)

## Indra and Middle Eastern Religions & Buddhism

---

**It is up to Allah on whom to bless.**

“Whatever Mercy Allah accords to people, none can withhold; and whatever He withholds, no other will be able to release after Him. He is the Most Mighty, Most Wise.” (Holy Quran 35-2)

“Hero, when you desire to give, neither Gods nor men can stay you, as (they cannot stay) a terrible bull.” (8-81-3 SB)

(When Indra blesses the devotee then all Gods appear one by one.)

If Indra has blessed me then it is his will.

**“Om Shantih, Shantih, Shantihi”**

## Chapter 6: Indra & Buddhism

### Benefits of Reciting Ten Mala of “Om Mani Padme hum”

(Excerpts

from [www.lamayeshe.com/article/chapter/chapter-6-benefits-reciting-om-mani-padme-hum](http://www.lamayeshe.com/article/chapter/chapter-6-benefits-reciting-om-mani-padme-hum))

*"It's mentioned that if you have done even one nyung nä (fasting retreat) well or if you recite ten malas of OM MANI PADME HUM every day, there is unbelievable benefits, especially if you want to heal people. When you are in a public place, the negative karma of anybody who sees you is purified, and those people won't be reborn in the lower realms. If you are on top of a hill with many people down below, all their negative karma is purified when they look at you. That means you become meaningful to behold. This happens because of the power of mantra and also because you visualize yourself as Chenrezig (Avalokiteshavar). This blesses you, so that your body becomes a relic. In that way, the negative karma of anybody who sees you is purified. Even if you don't have any particular reason to go to a market, you can go there and walk around just to purify other sentient beings. Doing nyung näs and reciting ten malas of OM MANI PADME HUM every day are great practices.*

*When you recite ten malas a day, if your breath touches other people when you're talking, it purifies their negative karma. When you're walking along a street, the wind that blows over your body becomes blessed, and when that wind then goes on to touch any being, fat or skinny, human or animal, ant or elephant, it purifies all their negative karma, and they won't be reborn in the lower realms. It also means*

## Indra and Middle Eastern Religions & Buddhism

*that the negative karma of anybody who touches you is purified. It's the same when you touch anybody. If you touch somebody by shaking their hand or by massaging them, it purifies all their negative karma. There are these unimaginable benefits.....*

*If you do nyung näs or recite OM MANI PADME HUM one thousand times every day, when you then go to swim in a river or an ocean, since your body is already blessed by visualizing yourself as Chenrezig and by reciting the mantra, the whole river or ocean is blessed. All the people who then come to play in or on the water, swimming or surfing, are purified; the negative karma of anybody who is touched by the water is purified, and the same thing happens to all the numberless other beings in the river or ocean, from the large sharks and fish down to the tiny microscopic beings. All their negative karma to be born in the lower realms is purified.....*

*Why does chanting OM MANI PADME HUM become Dharma? Because it protects you from suffering. The action is pure because the motivation is uncontaminated by the attachment clinging to this life. By that, it becomes Dharma, and that action results in happiness, the happiness of future lives.*

*It's very easy for the reciting of OM MANI PADME HUM to become Dharma, and very easy for it to purify your negative karma. The motivation of people who chant OM MANI PADME HUM many times is usually to benefit others, to pacify others' sufferings and bring them happiness. That's a very special motivation. And when a person recites OM MANI PADME HUM so much, it's also a prayer, and the prayer is mostly for others."*

# Indra and Middle Eastern Religions & Buddhism

**Who is Avalokiteshvara?** "The name Avalokiteśvara combines the verbal prefix ava "down", lokita, a past participle of the verb lok "to notice, behold, observe", here used in an active sense; and finally īśvara, "lord", "ruler", "sovereign" or "master". In accordance with sandhi (Sanskrit rules of sound combination), a+īśvara becomes eśvara. Combined, the parts mean "lord who gazes down (at the world)". The word loka ("world") is absent from the name, but the phrase is implied.[3] It does appear in the Cambodian form of the name, Lokesvarak." (Wikipedia)

This understanding leaves us no doubt about who is Avalokiteshwara; indeed it is Indra who is Avalokiteshwar. He has established his Throne above the universe. Indra is seeing and hearing all the species and observing the whole universe from his abode. Indra is also present within all the species observing all our action without interfering in our activities.

Recently (after the website was published) I read the above article and I was motivated to chant this mantra to purify myself and observe what the mantra will reveal to me.

YouTube channel has many videos on chanting 'Om Mani Padme Hum' by Buddhist monks. I have seen many videos and articles that speak of the glory of the mantra. But I have failed to come across any personal account of chanting experience by monks.

What vision does one see while chanting the mantra 'Om Mani Padme Hum'? Why is it called the purification or healing mantra of the self and the people around? Will the chanting of mantra videos has any effect? Is it pronounced in right way? Why this mantra leads one to the Pure Land of Buddhas?

## Indra and Middle Eastern Religions & Buddhism

The mantra videos chant 'Om Mani Padme Hum' continuously without any break. Chanting hurriedly as in the videos may not give full result. (See EBook 'The Secret of Rig-Veda' Chapter 2 on how to chant mantras.) Mantra should be chanted clearly once and observe the effect and vibration for 10 to 20 seconds. Thereafter chant again.

Now let me share my experience of chanting the mantra 'Om Mani Padme Hum'. I had already successfully awakened Kundalini and had the vision of the Supreme Lord Indra and other Devatas. So it was easy for me to see the effect of chanting 'Om Mani Padme Hum'. I first chanted mantra concentrating on the navel because Mother Goddess is here. As I chanted mantra few times, I could clearly see the Mani (Jewel) in the centre of the six petal lotus. The brilliance of the jewel covers the six petal lotus (Padma) obscuring the chakra.

### **How does the jewel look like?**

It appears like a pearl with the brilliance of Moon and the Moonlight spreading across the whole body. The Moonlight also spreads around the atmosphere. After chanting few times and meditating on Pearl for ten minutes I focused on heart centre because Indra is present here and I chanted the mantra. The lotus in the navel withdrew and appeared in the heart centre with the same brilliance covering the whole body. I meditated for ten minutes and then focused on the eyebrow centre.

When I chanted the mantra 'Om Mani Padme Hum' in the eyebrow centre. The lotus in the heart centre withdrew and appeared in the eye brow centre with the Pearl shining brilliantly with Moonlight. It is the place of subtle mind. After meditating in eye brow centre for ten minutes I shifted the attention to Sahasrara Chakra and chanted the mantra.

As soon as I chanted the mantra, the eye brow centre lotus was

## Indra and Middle Eastern Religions & Buddhism

---

withdrawn and the lotus appeared in the centre of Sahasrara Chakra facing downward. After few days a thought appeared to shift lotus facing upward. I chanted Om to lift the lotus upward and the pearl and the lotus faced upward spreading the Moonlight all around the atmosphere.

The Mani Padme lotus with six petal appears to be the size of 3/4th or about one inch in diameter with the Pearl of size 1/4th of an inch in diameter shining brilliantly with Moonlight. The brilliance of the Pearl obscures the six petals and one can hardly see it. The Moonlight spreads throughout the body and all around the atmosphere. I meditated for ten minutes in Sahasrara Chakra and came back to the navel centre step by step.

It seems chanting the mantra purifies the physical body and Pranamaya Shareera and Manomaya Shareera. Prana and mind is called Jiva who undergoes many cycles of births as he travels between heaven and earth. When the lotus is facing on top of the Sahasrara Chakra, the atmosphere surrounding the yogi is purified with the brilliance of Moonlight.

### **Here is the invoking procedure I follow.**

Invoke all the inner bodies and purify them with Pranayama. Then invoke the Buddha Muni who first saw the mantra. As one invokes, Buddha Muni descends on top our head in the place of frontal lobe. Once again do 3 Pranayama and after doing it, perform Anganyasa Karanyasa. (See the procedure in EBook Agnihotra)

This is important; to protect our body from any outside influence. Sometimes astral body of few sages or Prana Devatas may be attracted towards those who are meditating and they may come and communicate with the yogi. Our body is the replica of the universe (microcosm is the replica of macrocosm) hence only Devatas

## Indra and Middle Eastern Religions & Buddhism

mentioned in Rig-Veda must be asked to enter the fort (Kavacha) created by Anganyasa Karanyasa. All others must be blocked from entering our personal universe, the microcosm.

**(Sadhana means to realize that one is a replica of the universe and see its glory within us. As Jesus said "The Kingdom of God" is within us as well as outside us. Let no one interfere with our mini universe except The Guru and Devatas.)**

Now let us continue with the invoking process. Awaken the inner bodies. Perform 3 Pranayamas and then invoke and chant as stated below.

"Om Mani Padme Hum' mantra Drashtara Buddha Muniye namaha.  
Dhyayami Dhyanam Samarpayami.  
(Touch the frontal lobe)  
Aavahayami Asanam Samarpayami"

Buddha Muni will descend on top of the head and he appears in sitting position. Worship him, offer flower to his feet and request him to reveal the secret of mantra.

Start chanting the mantra slowly and clearly, 'Om Mani Padme Hum'.

The sound Om is the Alfa and Omega of different kinds of sounds. Every sound or mantra becomes active by affixing Om and every sound or mantra dissolves in Om. God is holding the universe through this sound. The sound Om is continuously humming within us. Hence it is called Anahata Sound, i.e. sound generated on its own without striking two object.

Mani Padme means pearl in the centre of six petal lotus.

Hum is the sound of awakening Mani lotus.

Hum is used to awaken sleeping Kundalini.

Hum is also used to place Atma Jyothi/Flame/Light inside Yupa Stambha that leads Jiva and Atma to the abode of Indra.

Hum is also used to drive something (negative energy) out of the body.

Here in this mantra, Hum is chanted to awaken Pearl in the centre of six petal lotus.

## **Chapter 7: Laws (Rta) established for humanity**

Varuna is the Lord of Primordial Water (lifeless sub atomic particles that behaves like water) and the galaxies and suns are created by this water. All living beings are also created by Primordial Water. Five elements in the universe are also created by Primordial Ocean. Lord Varuna, as the lord of Primordial Ocean along with Lord Mitra has established his Divine Laws upon his subjects. They document all our actions in our life on earth and present it to Lord Yama for Judgment after death. Whoever transgress his laws are bound by his noose and taken to the lower world for punishment. Varuna does not care whether we know the divine laws or not. It is our duty to know the right and wrong. Revelation has already been sent.

Like our earthly courts, if anyone commits any crime, he is taken into custody and judge passes the judgment for the crime. The punished person cannot claim that he did not know the law hence he should be forgiven. Similarly Lord Varuna is very strict in passing his judgment on his subjects. One may escape from the earthly court but how can one escape from Lord Varuna. Only a person who is blessed by Gods may be spared.

### **Now let us understand why pious people who worship God go to Hell**

Do you think you are superior to others? If you are given power, will you cause harm, kill the enemy, subjugate others or convert them? Do you HATE? Can you see the Kingdom of God within you?

The answer to these questions will answer whether one is under the influence of Satan or Supreme Lord. Each and every religion and sects

tell us to worship God daily. Whether one prays three times a day or five times a day does not mean anything to God.

**“Everyone is ruled by the King of Demon Vrtrasura (called Satan/Leviathan Beast)”.**

Fig 1. When Lord commanded Adityas (Elohim) to start creation; first they created the galaxies and Suns by compressing the Primordial Ocean.

Fig 2. The Light of Sun's radiance disturbed the Demons who were in Salt & Bitter Ocean because they see everything as if happening in front of their eyes. (This is also the qualities of Gods.) Hence Vrtrasura created the fort around the suns and galaxies and submerged them with Darkness & Ignorance. God is Light but King of Demon represents Darkness.

Fig 3. The Supreme Lord Indra fought with Ahi, the Leviathan Beast, defeated Satan in the universe, pushed him down to the nether world and closed the lid. Indra retained the fort and drilled holes to allow chakras to drive water upwards. Indra established his rule over the

water and placed his Throne above the universe. The universe is free of any Demonic activities.

However Demons are active within all species including humans because all are replica of the universe. **Microcosm is the replica of Macrocosm.** The Kingdom of God is within us but the King of Demon Vrtrasura has covered it with darkness and made us ignorant about it. Hence when one praises God, it is Satan's mind that is praying. Why would Lord listen to the prayers of Satan?

## What are the qualities of Satan?

### 1. The worst quality of Satan is HATE.

Hate is the basic quality that distinguishes between God and Demon. God is Love and Satan represents Hate, the opposite quality of Love. The Hate within us is the proof of Demonic activities. There is Hate between all religions, sects, caste and creed. Hindus want to establish their religion as supreme, Jews, Christians and Muslims similarly want to establish their religion on the surface of the earth. Hence all religions and groups hate others for not believing their laws of sacred books. **Kill; is the commandment of Haters.**

### 2. Seeking Power over others is also the Quality of Satan.

Seeking the power and dominance over all others is the quality of Satan because he is the King of Demons who wants to establish rule on the earth. Hence he manifest in those who have absolute power. History is replete with the stories of Kings waging war against others and killing millions of people in their belief of God or world dominance.

# Indra and Middle Eastern Religions & Buddhism

---

## 3. Superiority complex

People who are in ignorance of the Truth believe that they are right, also thinks they are worshipping the true God and others are worshipping the false God.

1. It may be Islamic invaders who caused havoc in India, white people's act of slavery and world dominance are nothing but the activities of King of Demon. Recent examples are the act of Hitler, Stalin, Mao and Pol Pot who have killed millions of people. Satan also manifest with full power in all religious groups who are hell bent on revenge and world dominance. **Their main aim is to establish Kingdom of Satan in the name of Supreme Lord.** These groups main goal is to establish their faith all over the world through war/Jihad/inducement. Even ordinary people commit heinous crimes under the influence of Satan. All religions believe they and their faith is superior.
2. Muslims believe they are superior as they are the true worshippers of Allah. Hence they hate others for not accepting their religion. Islamic Kings committed worst kind of sin bigger than the Holocaust in India. Their hate continues against Hindus.
3. Jews claim special status from God as the future Messiah belongs to them hence they think Jews are superior and look down upon others.
4. Christians claim Jesus is the Alfa and Omega, the only Saviour and all must reach God through Jesus only. History has documented the war of religions through Holocaust, Crusade and Jihad.

## Indra and Middle Eastern Religions & Buddhism

---

5. Hindus believe their religion is the oldest religion called Sanatana Dharma, a religion that has no beginning. They accept the Gods of other religions as they believe that all paths lead to the Supreme Lord. Many Hindus go to Darga (tomb of Sufi saints), Churches etc for blessings.

However Hindus hate their own people in the name of caste, practice untouchability and dislike black skinned people. Television serial on the life of Dr BR Ambedkar highlights the plight of lower class of people in India just one hundred years back. Untouchability was practiced since ages that are more horrible to imagine today. Thanks to the British for opening the education to all classes of people in India.

**Hence directly or indirectly all religions practice hate and dominance believing they are superiors.**

### **Six vices of Satan**

The human mind has two poles of opposites such as Love-Hate or Divine Mind-Demonic Mind etc. Hence Mind is the fertile ground for the dominance by the Demons because the Demonic mind is subject to addiction. It is very easy to fall on Demonic influences because their philosophy is very attractive to human beings which need no effort from one's side.

In fact Demons have already established their empire on earth. Base feelings called Six Enemies of mankind are the weapons of Demons by which they establish their philosophies in human beings on earth. This philosophy leads one to bondage and darkness which is the Kingdom of Demons. These base feelings are called

1. Desire: All kinds of desire, that leads to the below vices.

## Indra and Middle Eastern Religions & Buddhism

---

2. Anger: one gets angry when the desires are not fulfilled or someone stands in between the desire.
3. Greed: acquiring everything for oneself alone and try to accumulate more and more.
4. Attachment: the feeling of mine.
5. Pride: of belonging to a religion, education, superior complex or pride of upper caste.
6. Jealousy/envy: Jealousy is born out of seeing others successful or one's achievement in life etc.

These are the qualities of Demons that all human being have it and it proves that all are under the influence of Demons. Invoking Demons by performing Black Magic; inviting negative personalities to the earthly plane is more dangerous than any sins. **Hence Lord has given a warning.**

**“O people! .... Follow not in the footsteps of Satan. For surely he is your open enemy; he only commands you to do evil and commit acts of indecency and to ascribe to Allah the things concerning which you have no knowledge (that Satan really is their source).**  
(Holy Quran 2-168, 169)

### **All are outer form of God only**

All forms are the outer forms of Supreme Lord only. The Lord is within us and within all species. Lord is seeing and watching all our actions but he doesn't interfere with our life. He has given full freedom to each and every individual to fulfill their desires. However Gods have established a universal law for everyone to follow. Let us look at few statements on this.

## Indra and Middle Eastern Religions & Buddhism

---

“Maghavan (Indra) becomes repeatedly (manifest) in various forms, practicing delusions with respect to his own peculiar person; ....” (Rig-Veda 3-53-8 SB)

This means all are Indra’s outer form for others to see. When one understands it, how can one kill or subjugate others? Also read what Holy Quran states.

“There is no animal that crawls on earth and no bird that flies with its two wings but are communities like you. We have neglected nothing in the Book (of decree). Then to the Lord will they all be mustered. (Holy Quran 6-38)

“Surely We have created man (*woman and all species*), and We know the promptings of his heart, and We are nearer to him than even his jugular vein. Moreover, there are two scribes one each sitting on the right and the left, recording everything. (Holy Quran 50-16, 17)

These verses clearly state that all species including men and women are the outer form of Supreme Lord. When this is so how can one hate others, kill others, subjugate women and other nations. Killing people in whatever pretext is an act of Satan. When one commits such heinous crime against humanity where will one go after death; to Heaven or Hell?

### **Divine Laws (Rta)**

***“Lord Varuna has established Divine Laws that even Gods including Supreme Lord follows.”***

One may imagine the creation but that does not manifest, energy or force cannot create anything on its own unless someone make use of

it. Physical world and bodies manifest only because of Primordial Water and we have read that Primordial Ocean is nothing but Lifeless sub atomic particles that behave like water. Science has proved that all creation in the universe is due to atoms only. All five elements (Panchabutas) are created by atoms only. Lord Varuna as the Lord of Primordial Ocean has established laws for men to follow. One cannot know all the laws of Varuna but let us now see some of the divine laws stated by the sages that leads us Hell or have restricted life on earth as ghosts or punishment in our next life.

## Indra and Middle Eastern Religions & Buddhism

37. Who kills animals unnecessarily or for fun or kill cruelly, one who does not treat all men, women and animals with respect will be punished. Such nations and their people will have to undergo punishment for committing these greatest

sins. (There are many examples in history about such crimes and punishment.)

Finally Lord has placed a duty on us i.e. everyone should offer 10% of his earnings to the Lord which should be used for the welfare of the elders, education, medical assistance to the poor and under privileged people. Even if one is poor, he must at least give 2.5% of his earnings to the Lord.

By reading these Divine Laws one may be disturbed about the strict laws. But people must understand that these sins committed by anyone are punishable in the court of law. We may escape from the earthly court but we cannot escape from the noose of Varuna. However we as human beings cannot know all the Laws of Varuna.

These laws are based on Garuda Purana and modern times. However it is we who create our own path by our actions on earth.

## **How can one come out of the grip of Satan?**

1. First step is to understand that all are sons of the Supreme Lord. He is present in all and watching our every action. The physical body is created by Sun-Savitr but it survives due to Lord's presence in it.
2. From this understanding comes LOVE towards all. Along with prayers one must develop the qualities of the Supreme Lord i.e. Love, forgiveness, compassion, humbleness and helping nature etc.
3. Rig-Veda has given us a path of Agnihotra (Yajna) for slaughtering Demon King Vrtrasura and to attain liberation by going straight to the abode of the Lord at the time of death.

## Indra and Middle Eastern Religions & Buddhism

*“O Indra, you become increased by yajna. The Soma released in the sacrifice is dear to you, who belong to the sacrifice. O Lord of yajna, protect and increase the yajna by yajna. Yajna becomes your protector in the killing of Ahi by Vajra.” (RV 3-32-12 RLK)*

### **What happens to those who are not following the path of Agnihotra?**

*“The path to immortality is hard, and only a few find it. The rest await the Great Day when the wheels of the universe shall be stopped and the immortal sparks shall escape from the sheaths of substance (only then they go to the abode of the Supreme Lord). Woe unto those who wait, for they must return again, unconscious and unknowing, to the seed-ground of stars, and await a new beginning. –Kyballion*
